I suppose it is too late to de-scope since there is only 2 weeks to go, we need to make sure this support is not in the new sole source.

Subject: [External] Re: 25AF-GTMP Labor Through 21 Apr

Don/Chip,

Apparently the number that was given and awarded for 25 AF Sole Source no cost extension were over estimated and in addition to the amount that was transferred over from 480th to 25 AF funding-wise; which means not via contractual action, was not the only amount needed. According to BAH email we also have excess labor funding for 480th through April 21 and too little for 25 AF.

Are you again willing to share funding- 480th donate internally to 25 AF? We are not able to track this on GSA side, nor is this a contractual action.

Please send approvals my way if agreed.

Thank you,

On Fri, Apr 5, 2019 at 3:33 PM Legett, Kevin [USA] (b) (6) @bah.com> wrote:

Marie/Chip/Chris,

BLUF: MOD15 provided sufficient funding to extend the 25AF-GTMP contract to end of the day on 21 Apr. However, MOD15 MIPR breakouts by organization brought forward from Base Year and NCTE-1 and new funding applied (480th only), presents a mapping challenge for labor funding.

- De-obligated MIPR amounts (from Base and NCTE1 Periods) and new funding applied to 480th leaves **positive \$1.8M** in backlog on 22 Apr
- De-obligated MIPR amounts (from Base and NCTE1 Periods) and no new funding applied to 25th leaves **negative \$995K** in backlog on 22 Apr

Recommendation:

480th allows 25th to utilize funding mapped to 480th MIPR to cover negative amount ~\$1M. (Requires TPOC, 480th and COR approval, no MOD)

- Note: During the Dash-8 period 480th used \$444K of 25th funding
- Note: During the NCTE2 26-29 Mar period 480th used \$455K of 25th funding
- Total 25AF funds used to cover 480th Labor (Dash-8 and NCTE-2) = \$899K

Let me know if you have questions and steps to proceed.

Subject: [Non-DoD Source] Property Release from 25 AF Sole Source

Good Morning Chip,

Do you know if your office has a property administrative position?

BAH is looking to remove the property that was listed on the 25 AF Sole Source from the old contract. However, in order to do so; FEDSIM needs somewhere to put it and someone to release it to.

For now, we are just pulling ALL equipment off the old contract. Once I get a consolidated list from ACC as to any equipment that might be needed going forward, we can reach to the

property administrator to have necessary equipment placed on contract.

Thank you,

Disregard. Saw Mikes email.

Thank you Mike.

Bob, Preston is TPOC.

Thanks all,

On Tue, Apr 23, 2019 at 10:23 AM Marie Shipper-QF0B1DA <marie.shipper@gsa.gov> wrote:

Bob,

I am happy to provide that email for you. Let me confirm the plan with ACC.

I have CCd Preston Bright on this email. Preston, I just want to confirm... Is each org supposed to process their own folks? Or is ACC owning/handling security as 25 AF did for the last sole source?

Thank you,

On Tue, Apr 23, 2019 at 7:44 AM 25 AF/SO Industrial Security (b) (6), (b) (7)(C)@us.af.mil> wrote:

Hello Ms Marie, I hope I can ask a question.

I was off last week.

I understand there is a 90 day bridge for the BAH contract. I also understand there is a new contract number, which overwrites the existing contract. I need (if possible) a email from you putting the below as local TPOC's for this bridge. Please

25 AF assigned locations ONLY:

Michael Nielson, GG-13, 25 AF/AFCO-CF (Primary TPOC)

If possible:

Frank Von Heiland, GG-15, 25 AF/A2F (Alt TPOC)

Christopher Norman, GG-13, 25 AF/AFCO BM (Alt TPOC)

I need to process a new access roster, and without a TPOC email, I do not have anyone to sign approving. As the COR, only you or the CO can assign TPOC's for contracts.

I would appreciate your help. Thank you Ms Marie and I promise to not bother you too much.

Denise

With the COR in the hospital, both the 25th and 480th concur with the following, so I think you are the only person that can say you concur/approve ASAP.

Subject: RE: RESPONSE REQUIRED:] Re: 25AF-GTMP Labor Through 21 Apr

480th Wing has no issue of moving funds.

Don

Recommendation:

480th allows 25th to utilize funding mapped to 480th MIPR to cover negative amount ~\$1M.

(Requires TPOC, 480th and COR approval, no MOD)

Note: During the Dash-8 period 480th used \$444K of 25th funding

Note: During the NCTE2 26-29 Mar period 480th used \$455K of 25th funding

Total 25AF funds used to cover 480th Labor (Dash-8 and NCTE-2) = \$899K

Subject: [External] Re: 25AF-GTMP Labor Through 21 Apr

Don/Chip,

Apparently the number that was given and awarded for 25 AF Sole Source no cost extension were over estimated and in addition to the amount that was transferred over from 480th to 25 AF funding-wise; which means not via contractual action, was not the only amount needed. According to BAH email we also have excess labor funding for 480th through April 21 and too little for 25 AF.

Are you again willing to share funding- 480th donate internally to 25 AF? We are not able to track this on GSA side, nor is this a contractual action.

Please send approvals my way if agreed.

Thank you,

On Fri, Apr 5, 2019 at 3:33 PM Legett, Kevin [USA] (b) (6), (b) (7)(C) @bah.com> wrote:

Marie/Chip/Chris,

BLUF: MOD15 provided sufficient funding to extend the 25AF-GTMP contract to end of the day on 21 Apr. However, MOD15 MIPR breakouts by organization brought forward from Base Year and NCTE-1 and new funding applied (480th only), presents a mapping challenge for labor funding.

- De-obligated MIPR amounts (from Base and NCTE1 Periods) and new funding applied to 480th leaves **positive \$1.8M** in backlog on 22 Apr
- De-obligated MIPR amounts (from Base and NCTE1 Periods) and no new funding applied to 25th leaves **negative \$995K** in backlog on 22 Apr

Recommendation:

480th allows 25th to utilize funding mapped to 480th MIPR to cover negative amount ~\$1M.

(Requires TPOC, 480th and COR approval, no MOD)

- Note: During the Dash-8 period 480th used \$444K of 25th funding
- Note: During the NCTE2 26-29 Mar period 480th used \$455K of 25th funding
- Total 25AF funds used to cover 480th Labor (Dash-8 and NCTE-2) = \$899K

Let me know if you have questions and steps to proceed.

Thank you Ms. Perez and Chip for sending instructions.

BAH, please be sure to provide Ms. Perez the information she needs to have access to the govt owned systems/property/equipment.

Thank you,

On Thu, May 23, 2019 at 2:50 PM PEREZ, KATHLEEN A GG-13 USAF ACC A2/AFCO (b) (6), (b) (7)(C) @us.af.mil> wrote:

For the project deliverables that are stored on the Booz Allen servers in San Antonio how will that information be transferred to the Government?

For the majority of our builds we do not have the full source code and graphics. When a customer requests this we have to ask BAH to send it to them.

Can we please copy the build repository to the server that was purchased for Checkmarx and never used? I believe that is what that 1 server unopened was for...

What would be the best way for the government to get a copy of the entire build repository with full source code and graphics?

Thank you so much for taking the time to put this all together as well!

Subject: [Non-DoD Source] RE: GS00Q17AJC0032 - 25AF GTMP: Contractor Purchased Equipment/Govt Property

Ms. Perez,

Sorry for the delay - I've been fighting a virus and was out earlier this week. Please find the below information surrounding your data request. Please note that the items listed in the Hardware table were also included in the property list we provided last week. As for source code and graphics, that information is provided to the Government with each of the project deliverables with copies stored on local Booz Allen servers in San Antonio. I've included an attachment detailing all of our products that were delivered during the period of performance on contract GS00Q17AJC0032. Please advise if you have any questions or follow-ups. Thanks.

Subject: GS00Q17AJC0032 - 25AF GTMP: Contractor Purchased Equipment/Govt Property

Good Afternoon,

Per the meeting on Tuesday, May 14, please find the following Government Property/Contractor Purchased Equipment information for the 25AF GTMP contract:

1) 25AF GTMP RIP Tracker

| This excel file includes three sheets:

1) All Contractor Purchased Equipment via RIP on the 25AF GTMP contract.

| I have added a note for all RIP charges associated with shipping

2) Government Furnished Property via Attachment T (Mod 02) – attached separately as well for reference.

3) Excel detail of the equipment listed in the DD1149's for the CAT CWD.

2) Two DD1149's for the CAT CWD Equipment transfer (signed by Lt. Col Michael Sullivan acknowledging custodial transfer of equipment at Davis-Monthan AFB)

| Email notification to FEDSIM on 1/31, 2/1, and 2/6/19 attached providing additional details).

| ZIP File of the RIP/Receipts used to calculate the CAT CWD equipment. Table below identifies the individuals who migrated to the CAT CWD program:

3) DD1149 for the Legacy SURVIAC equipment

As of right now, no equipment/property have been identified that requires moving between Booz Allen locations. I am still working to collect the data for Ms. Perez and will provide SEPCOR, but did not want to delay providing this information in the interim. Let me know if you have any follow-up questions. Thank you.

Subject: [External] POCs for Property

Jamison,

Please see all personnel that need to be included in all Property emails and discussions. Please be sure to include all legacy equipment/property as well as current equipment/property in a consolidated email to the group. Please also make sure that any hardware/software/accounts/servers/data information is included. All log-ins, source code, names, and data locations, etc. must be included. Per our conversation, please verify within BAH as to the status of any physical equipment/property that needs to move from BAH locations.

Thank you,

Bob,

I am happy to provide that email for you. Let me confirm the plan with ACC.

I have CCd Preston Bright on this email. Preston, I just want to confirm... Is each org supposed to process their own folks? Or is ACC owning/handling security as 25 AF did for the last sole source?

Thank you,

On Tue, Apr 23, 2019 at 7:44 AM 25 AF/SO Industrial Security (b) (6), (b) (7)(C) <[@us.af.mil](mailto:(b) (6), (b) (7)(C)@us.af.mil)> wrote:

Hello Ms Marie, I hope I can ask a question.

I was off last week.

I understand there is a 90 day bridge for the BAH contract. I also understand there is a new contract number, which overwrites the existing contract. I need (if possible) a email from you putting the below as local TPOC's for this bridge. Please

25 AF assigned locations ONLY:

Michael Nielson, GG-13, 25 AF/AFCO-CF (Primary TPOC)

If possible:

Frank Von Heiland, GG-15, 25 AF/A2F (Alt TPOC)

Christopher Norman, GG-13, 25 AF/AFCO BM (Alt TPOC)

I need to process a new access roster, and without a TPOC email, I do not have anyone to sign approving. As the COR, only you or the CO can assign TPOC's for contracts.

I would appreciate your help. Thank you Ms Marie and I promise to not bother you too much.

Subject: [External] Re: 25AF-GTMP Labor Through 21 Apr

Don/Chip,

Apparently the number that was given and awarded for 25 AF Sole Source no cost extension were over estimated and in addition to the amount that was transferred over from 480th to 25 AF funding-wise; which means not via contractual action, was not the only amount needed. According to BAH email we also have excess labor funding for 480th through April 21 and too little for 25 AF.

Are you again willing to share funding- 480th donate internally to 25 AF? We are not able to track this on GSA side, nor is this a contractual action.

Please send approvals my way if agreed.

Thank you,

On Fri, Apr 5, 2019 at 3:33 PM Legett, Kevin [USA] (b) (6), (b) (7)(C) @bah.com> wrote:

Marie/Chip/Chris,

BLUF: MOD15 provided sufficient funding to extend the 25AF-GTMP contract to end of the day on 21 Apr. However, MOD15 MIPR breakouts by organization brought forward from Base Year and NCTE-1 and new funding applied (480th only), presents a mapping challenge for labor funding.

- De-obligated MIPR amounts (from Base and NCTE1 Periods) and new funding applied to 480th leaves **positive \$1.8M** in backlog on 22 Apr
- De-obligated MIPR amounts (from Base and NCTE1 Periods) and no new funding applied to 25th leaves **negative \$995K** in backlog on 22 Apr

Recommendation:

480th allows 25th to utilize funding mapped to 480th MIPR to cover negative amount ~\$1M.
(Requires TPOC, 480th and COR approval, no MOD)

- Note: During the Dash-8 period 480th used \$444K of 25th funding
- Note: During the NCTE2 26-29 Mar period 480th used \$455K of 25th funding
- Total 25AF funds used to cover 480th Labor (Dash-8 and NCTE-2) = \$899K

Let me know if you have questions and steps to proceed.

Kevin

Chris,

For now: Can you read and add input/edits to my CPARs ratings for the final review? Feel free to pull Chip in as well; however I dont want everyone on this email chain to see unofficial CPARs.

Thanks!

Update: Please see narratives and a couple of rating changes. Please check and make sure that I am being fair as well as accurate.

If you have any backup data/emails/accolades/issues to add, please include so that I can see changes.

Thank you,

I am happy to provide that email for you. Let me confirm the plan with ACC.

I have CCd Preston Bright on this email. Preston, I just want to confirm... Is each org supposed to process their own folks? Or is ACC owning/handling security as 25 AF did for the last sole source?

Thank you,

On Tue, Apr 23, 2019 at 7:44 AM 25 AF/SO Industrial Security (b) (6), (b) (7)(C) <[@us.af.mil](mailto:(b) (6), (b) (7)(C)@us.af.mil)> wrote:

Hello Ms Marie, I hope I can ask a question.

I was off last week.

I understand there is a 90 day bridge for the BAH contract. I also understand there is a new contract number, which overwrites the existing contract. I need (if possible) a email from you putting the below as local TPOC's for this bridge. Please

25 AF assigned locations ONLY:

Michael Nielson, GG-13, 25 AF/AFCO-CF (Primary TPOC)

If possible:

Frank Von Heiland, GG-15, 25 AF/A2F (Alt TPOC)

Christopher Norman, GG-13, 25 AF/AFCO BM (Alt TPOC)

I need to process a new access roster, and without a TPOC email, I do not have anyone to sign approving. As the COR, only you or the CO can assign TPOC's for contracts.

I would appreciate your help. Thank you Ms Marie and I promise to not bother you too much.

Subject: [Non-DoD Source] Property Release from 25 AF Sole Source

Good Morning Chip,

Do you know if your office has a property administrative position?

BAH is looking to remove the property that was listed on the 25 AF Sole Source from the old contract. However, in order to do so; FEDSIM needs somewhere to put it and someone to release it to.

For now, we are just pulling ALL equipment off the old contract. Once I get a consolidated list from ACC as to any equipment that might be needed going forward, we can reach to the property administrator to have necessary equipment placed on contract.

Thank you,

Marie,

I have repeatedly requested BAH meet Mr. Richard's information needs. Since he is the gatekeeper for his process, and is outside our chain of command, we require BAH adjust their procedures to accommodate Mr. Richard's needs (not the other way around). As long as Mr Richard's procedures and requirements remain within regulatory guidance we fully support his request.

BAH had assigned a site lead with the company locally (Mr Hegner) to act as a trusted agent between BAH Security and 25 AF/SO to resolve disconnects but that individual has moved on to other work with the company and BAH has not yet assigned someone to take on that work role. Fixing this may help smooth out the bumps.

Morning Marie

I am once again at odds with BAH. They are constantly moving people around, debriefing and I do not get the debrief oaths or removing them. I am told it is not their responsibility to get them debriefed and get me the oaths, but let me ask you these questions:

Who asks for these people to get briefed? Me? Answer the company does via the TPOC.

Who asks for these people to get debriefed? Once again, the company sends a debrief request thru the TPOC to me. After that I send a debrief oath, when they do not get debriefed, I ask and am usually told BAH told them to debrief, that is all BAH can do.

Or as today, I get a new access request, and find out people are missing and left the company. When I query the company they answer that they left. They failed to debrief, but it is not BAH fault. It must be my fault.

Well my roster and their roster does not match and I have to make them match before I can process new people and as usual they are complaining I am holding them up.

All this was explained at contract kick-off, but I guess it has been forgotten.

I am being told they will contact you about this, so I am sending this email so you have my side of the story. I have cc'd the TPOC's if you have any questions.

Below is the latest hold up:

On your 26 Mar SAL

25 AF

Bigelow, Thomas – removed from listing requires debrief, when is he coming in for debrief? BAH already removed their screen, why?

24 AF

Theetge, Roy – debriefed remove from your listing

Langley

Hotaling, James – has not debriefed as your company requested

Vail, Shannon – was removed by your company last listing. Is she back on the contract?

White, Gary – removed from your listing, not debriefed. When is he debriefing?

Beale

Clark, Joseph has not debriefed as your company requested. When is he debriefing?

Pyles, Ondra – has not debriefed as your company requested. When is he/she debriefing?

Recinos Escobar, Rafel – has not debriefed as your company requested. When?

Holland, Wesley – debriefed please remove.

Moreno, Francisco – debriefed please remove

TPOC's some of these are repeat notifications that have not been corrected. I am asking for your permission to hold processing on the new people until these actions are corrected. Please advise.

Subject: Re: [Non-DoD Source] ACC ISR Support Plan

Good afternoon Sir,

I completely understand and assure you FEDSIM will provide more frequent status updates. We do an internal status meeting at 10AM and 3PM. We'll provide updates after each session.

We just finished a phonecon with BAH. There's enough funding to last until this Friday at the current LOE. Ms. Meadows on Saturday had provided approval to allow all funding on the contract to to be used for continued support to 480th/25th (and others) at current level.. Additionally, FEDSIM is preparing the modification to realign and fund ceiling to enable continued BAH through April 15th (this date is based on available ceiling to realign). This modification is expected to be awarded by Thursday. Also, we're working the sole source contract in parallel to ensure it's awarded before the current 25th contract ends. The KO will be sending an email to BAH shortly documenting these items.

Respectfully,

Ken Evans, PMP

Mr. Evans, Mr. Parks and Ms Von Dibert,

I need your assistance, please. I now understand the extension on the BAH contract is only good through tomorrow afternoon. This is in contradiction to both the note below and the recent comms we've had via email. The 480th function is a mission critical task executed to support downrange operations.

We need the comms pipes to be open and continuous, especially against the backdrop of the known protest filed by BAH. PLEASE include all of those on this note in your future communications; we've been playing with part of the story on our end as messages always seem to have a different to/from group.

Thanks for your assistance, but we at ACC really need to know where we are on this effort so that we can plot an identifiable path ahead that fully supports downrange operations. V/R,

Subject: [Non-DoD Source] ACC ISR Support Plan

Good afternoon Syreeta,

This email documents the phonecons I've had with you regarding FEDSIM's plan to ensure continued support for ACC/480th/25th AF.

FEDSIM has identified \$2.3M of unfunded base year ceiling (CLIN0001) that will be realigned into the current performance period (CLIN1004). FEDSIM has also identified \$3.1M of unbilled funding from the base period (CLIN0001) and \$1.4M of unbilled funding from the no-cost extension period (CLIN0004). We plan to deobligate this amount from those CLINS to free up ceiling for realignment into CLIN1004.. (We have confirmed availability of unbilled funding CLIN 0001 with BAH. We're still waiting for confirmation of CLIN0004 unbilled funding.) This will provide a total of \$6.8 M of base year ceiling that we will realign to the current performance period. This should allow support at current FTE through approximately April 8th. The deobligated funding of \$4.5M is FY18 funding. FEDSIM will coordinate a plan for the deobligated funds with ACC. We will need to additional funds for CLIN1004. If new funding isn't available FEDSIM requests ACC's approval to deobligate \$6.8M from the newly awarded ACC ISR task order to fund the 25th Bridge task order CLIN1004.

Additionally, FEDSIM is in the process of executing another vehicle to support current operations through the transition period of the recently awarded ACC ISR task order.

Finally, Denise VonDibert, KO, will send today an notification to BAH summarizing the above. This notification will enable continued direct contract support.

Please let me know if you have any questions or concerns.

Regards,

Ken Evans, PMP

Marie,

I have repeatedly requested BAH meet Mr. Richard's information needs. Since he is the gatekeeper for his process, and is outside our chain of command, we require BAH adjust their procedures to accommodate Mr. Richard's needs (not the other way around). As long as Mr Richard's procedures and requirements remain within regulatory guidance we fully support his request.

BAH had assigned a site lead with the company locally (Mr Hegner) to act as a trusted agent between BAH Security and 25 AF/SO to resolve disconnects but that individual has moved on to other work with the company and BAH has not yet assigned someone to take on that work role. Fixing this may help smooth out the bumps.

Chip/Don, As far as there being funding for 480th travel that 480th does not need; and 25th does need. Please discuss between AF orgs and let us know if 480th will share funding for travel with 25 AF. We cannot do a mod to increase ceiling. We can send back funds and add new funds of the same amount if necessary. This would not be contractual as it is simple an internal MIPR tracking issue not a CLIN issues. However, the simpler option is to allow shared use.

Please advise.

Thanks,

Marie

Looking at options to best utilize the travel funding in the NCTE CLIN to support contract requirements. All travel funding is in the same CLIN, mapped to associated MIPRs. There was \$25K of the travel funding moved from Dash-8 to NCTE for 480th, I have no requirements from the 480th to use that travel funding prior to end of NCTE. The travel funding for 25th AF moved from dash-8 to NCTE was \$21K and it is all allocated supporting 25th requirements. There is additional 25th requirements beyond the \$21K, MAGIC demos and ACT.

Options:

- | Utilize the 480th Travel funding to support 25th requirements on NCTE up to 21 Apr. This will require your approval
- | Move approximately another \$10-13K of residual travel (based on actuals) funding from dash-8 travel CLIN to NCTE travel CLIN. This would require a MOD.

Marie

Reviewed this morning in more depth and talked with TPOC Chris Norman. Trusted Agent issue:

- | I have assigned 2 Booz Allen staff that currently work in 25AF Bldg 2000 to work SAL PII between the Booz Allen system and the Military system. Additionally these staff will be the intra-coordinators between the 25AF/SSO and Booz Allen/FSO
 - | This is an increase of 1 person due to the impending changes with movement to 2nd Sole Source and any transition activities to ensure TPOC and 25AF/SSO have a person on-site to coordinate with
 - | Estimated LOE is 1 hour per week (dependent on level of changes)

Chris Norman concurred with this approach.

Marie

The issue we brought up on the touch base was Authority to Indoc were being held up due administrative actions. We are unsure of what specific action you are referring to as Booz Allen responsibility, perhaps a call with the right folks to clarify, specifically for SCI. Also I am not aware of the Trusted Advisor issue?

Attached was my FSO response on the administrative updates to the SAL earlier today.

Kevin

Subject: [External] Assigned Trusted Advisor

BAH team,

Please update me on the issues that are going on with BAH and 25 AF security. It was discussed briefly during the touchbase meeting this AM ; however, I have now gotten many emails from 25 AF expressing frustration.

Contractually, whatever personnel needs to be in place to get security processing and through is BAH responsibility. Is the Trusted Advisor issue, one of not being able to find a BAH employee to replace the one that left?

Please let me know the plan of action so that I can relay information to 25 AF.

Thank you,

Good afternoon sir,

The modification to the 25th sole source contract will be awarded within the next two hours. This mod will add \$6.1M of ceiling and funding to the contract enabling performance to 21 April. Also, BAH has been informed of the pending award. Finally, the draft PWS for the new sole source was sent yesterday for ACC review.

Respectfully,

Subject: RE: HOT Legal Questions on ACC ISR Contract Protest

Chip,

Take a deep breath... The only effect the protest has is on our ability to use the new Leidos task order until resolution of the protest. On the extended BAH contract, once your CO tells you the mod is in effect to fund the remainder of the extension, and what your ceiling is, you just continue using that support. If GSA can award a 90-day bridge to BAH to continue that support, once they tell you that's in place, it's business as usual with BAH. Once the protest is resolved your CO will provide the way-ahead. GAO's goal is to resolve all protests within 100 days. Your other Leidos vehicle is a totally separate matter and is not affected by the protest in any way.

Don't let the "no email" message spook you. The email moratorium only affects the protested task order, not any of the business we need to transact with the BAH bridge or the other Leidos contract. Once you know the extension has been funded, its day-to-day use for continued support is not affected in any way by the protest stay. And that includes normal communication between us and our contractors. And the same thing goes for any subsequent bridge with BAH. Just don't discuss the protest with anyone from either company.

If we still need a meeting, let me know.

Paul

Subject: HOT Legal Questions on ACC ISR Contract Protest

Paul,

My team and I are in a tricky situation and I would like to set up a meeting with you to make sure we are all current on what we can and can't say and also how to keep the lines from blurring. And more importantly keep everything legal and protect 25th AF.

1. We have a current contract with Booz Allen Hamilton (BAH) which has been extended through an NCTE to 21 April.
 - Chris Norman and I are the Technical POCs (TPOCs) for this contract
 - We are required to continue to manage the contract and ensure the government continues to do what the government is required to do on this contract
2. The new large ACC ISR contract was awarded to Leidos on 15 Mar 19. Only Leidos and BAH bid on the contract
 - BAH protested the award on Monday, 25 Mar 19
 - GSA is currently working on a 90 day sole source contract with ACC A2, and 25 AF to keep BAH on contract during the protest period
3. We currently have a contract with Leidos under AEWD, Kat Hutt is the primary on that contract for us

So the challenge for us is that we have current contracts with both BAH and Leidos, that we are obligated to work and that we also have the new contract plus the protest to deal with.

Can we set up a meeting so you can brief all of my folks on what we can and can't do just to make sure that we keep everything legal? We have been through a protest before, but I think a refresher would be a good idea.

Thanks.

Don/Chip, Apparently the number that was given and awarded for 25 AF Sole Source no cost extension were over estimated and in addition to the amount that was transferred over from 480th to 25 AF funding-wise; which means not via contractual action, was not the only amount needed. According to BAH email we also have excess labor funding for 480th through April 21 and too little for 25 AF.

Are you again willing to share funding- 480th donate internally to 25 AF? We are not able to track this on GSA side, nor is this a contractual action.

Please send approvals my way if agreed.

Thank you,

On Fri, Apr 5, 2019 at 3:33 PM Legett, Kevin [USA] (b) (6) @bah.com> wrote:

Marie/Chip/Chris,

BLUF: MOD15 provided sufficient funding to extend the 25AF-GTMP contract to end of the day on 21 Apr. However, MOD15 MIPR breakouts by organization brought forward from Base Year and NCTE-1 and new funding applied (480th only), presents a mapping challenge for labor funding.

- | De-obligated MIPR amounts (from Base and NCTE1 Periods) and new funding applied to 480th leaves **positive \$1.8M** in backlog on 22 Apr
- | De-obligated MIPR amounts (from Base and NCTE1 Periods) and no new funding applied to 25th leaves **negative \$995K** in backlog on 22 Apr

Recommendation:

480th allows 25th to utilize funding mapped to 480th MIPR to cover negative amount ~\$1M. (Requires TPOC, 480th and COR approval, no MOD)

- | Note: During the Dash-8 period 480th used \$444K of 25th funding
- | Note: During the NCTE2 26-29 Mar period 480th used \$455K of 25th funding
- | Total 25AF funds used to cover 480th Labor (Dash-8 and NCTE-2) = \$899K

Let me know if you have questions and steps to proceed.

Kevin

Kevin,

ACC A2 contacted me and told me the number one priority is to ensure that there is no interruption of the 480th ISRW mission. I was asked to look at all options.

If we stop most of work on MAGIC/IMAG this Friday, how much will that give us that can be moved to the 480th mission?

We will still need the IMAG support for the UTSA Senior Military Officer engagement on 29 Mar 19.

Thanks.

Subject: Re: [Non-DoD Source] ACC ISR Support Plan

Good afternoon Sir,

I completely understand and assure you FEDSIM will provide more frequent status updates. We do an internal status meeting at 10AM and 3PM. We'll provide updates after each session.

We just finished a phonecon with BAH. There's enough funding to last until this Friday at the current LOE. Ms. Meadows on Saturday had provided approval to allow all funding on the contract to to be used for continued support to 480th/25th (and others) at current level.. Additionally, FEDSIM is preparing the modification to realign and fund ceiling to enable continued BAH through April 15th (this date is based on available ceiling to realign). This modification is expected to be awarded by Thursday. Also, we're working the sole source contract in parallel to ensure it's awarded before the current 25th contract ends. The KO will be sending an email to BAH shortly documenting these items.

Respectfully,

Ken Evans, PMP

Mr. Evans, Mr. Parks and Ms Von Dibert,

I need your assistance, please. I now understand the extension on the BAH contract is only good through tomorrow afternoon. This is in contradiction to both the note below and the recent comms we've had via email. The 480th function is a mission critical task executed to support downrange operations.

We need the comms pipes to be open and continuous, especially against the backdrop of the known protest filed by BAH. PLEASE include all of those on this note in your future communications; we've been playing with part of the story on our end as messages always seem to have a different to/from group.

Thanks for your assistance, but we at ACC really need to know where we are on this effort so that we can plot an identifiable path ahead that fully supports downrange operations. V/R,

Subject: [Non-DoD Source] ACC ISR Support Plan

Good afternoon Syreeta,

This email documents the phonecons I've had with you regarding FEDSIM's plan to ensure continued support for ACC/480th/25th AF.

FEDSIM has identified \$2.3M of unfunded base year ceiling (CLIN0001) that will be realigned into the current performance period (CLIN1004). FEDSIM has also identified \$3.1M of unbilled funding from the base period (CLIN0001) and \$1.4M of unbilled funding from the no-cost extension period (CLIN0004). We plan to deobligate this amount from those CLINS to free up ceiling for realignment into CLIN1004.. (We have confirmed availability of unbilled funding CLIN 0001 with BAH. We're still waiting for confirmation of CLIN0004 unbilled funding.) This will provide a total of \$6.8 M of base year ceiling that we will realign to the current performance period. This should allow support at current FTE through approximately April 8th. The deobligated funding of \$4.5M is FY18 funding. FEDSIM will coordinate a plan for the deobligated funds with ACC. We will need to additional funds for CLIN1004. If new funding isn't available FEDSIM requests ACC's approval to deobligate \$6.8M from the newly awarded ACC ISR task order to fund the 25th Bridge task order CLIN1004.

Additionally, FEDSIM is in the process of executing another vehicle to support current operations through the transition period of the recently awarded ACC ISR task order.

Finally, Denise VonDibert, KO, will send today an notification to BAH summarizing the above. This notification will enable continued direct contract support.

Please let me know if you have any questions or concerns.

Regards,

Ken Evans, PMP

Chip/Don,

As far as there being funding for 480th travel that 480th does not need; and 25th does need. Please discuss between AF orgs and let us know if 480th will share funding for travel with 25 AF. We cannot do a mod to increase ceiling. We can send back funds and add new funds of the same amount if necessary. This would not be contractual as it is simple an internal MIPR tracking issue not a CLIN issues. However, the simpler option is to allow shared use.

Please advise.

Thanks,

Marie

Looking at options to best utilize the travel funding in the NCTE CLIN to support contract requirements. All travel funding is in the same CLIN, mapped to associated MIPRs. There was \$25K of the travel funding moved from Dash-8 to NCTE for 480th, I have no requirements from the 480th to use that travel funding prior to end of NCTE. The travel funding for 25th AF moved from dash-8 to NCTE was \$21K and it is all allocated supporting 25th requirements. There is additional 25th requirements beyond the \$21K, MAGIC demos and ACT.

Options:

- | Utilize the 480th Travel funding to support 25th requirements on NCTE up to 21 Apr. This will require your approval
- | Move approximately another \$10-13K of residual travel (based on actuals) funding from dash-8 travel CLIN to NCTE travel CLIN. This would require a MOD.

Kevin

Chip/Chris

The travel funding on the NCTE transferred from the dash-8 period is \$65.6K

(b) (4)

All travel funding is in the same CLIN on the contract. Since labor funding is essentially all merged through 21 Apr, need guidance on how to use the travel funding. \$21K for 25AF is all allocated with additional requirements such as ACT etc. Recommend use the 480ISRW travel funding for 25AF support through 21 Apr. We have no travel requirements for the 480th.

The issue we brought up on the touch base was Authority to Indoc were being held up due administrative actions. We are unsure of what specific action you are referring to as Booz Allen responsibility, perhaps a call with the right folks to clarify, specifically for SCI. Also I am not aware of the Trusted Advisor issue?

Attached was my FSO response on the administrative updates to the SAL earlier today.

BAH team,

Please update me on the issues that are going on with BAH and 25 AF security. It was discussed briefly during the touchbase meeting this AM ; however, I have now gotten many emails from 25 AF expressing frustration.

Contractually, whatever personnel needs to be in place to get security processing and through is BAH responsibility. Is the Trusted Advisor issue, one of not being able to find a BAH employee to replace the one that left?

Please let me know the plan of action so that I can relay information to 25 AF.

Thank you,

To: Marie Shipper-QF0B1DA <marie.shipper@gsa.gov>, VON HEILAND, FRANK A GG-15 USAF ACC 25 AF/A2F (b) (6), (b) (7)(C)@us.af.mil>, (b) (6), (b) (7)(C)@us.af.mil (b) (6), (b) (7)(C)@us.af.mil>

Marie/Chip/Chris,

BLUF: MOD15 provided sufficient funding to extend the 25AF-GTMP contract to end of the day on 21 Apr. However, MOD15 MIPR breakouts by organization brought forward from Base Year and NCTE-1 and new funding applied (480th only), presents a mapping challenge for labor funding.

- | De-obligated MIPR amounts (from Base and NCTE1 Periods) and new funding applied to 480th leaves **positive \$1.8M** in backlog on 22 Apr
- | De-obligated MIPR amounts (from Base and NCTE1 Periods) and no new funding applied to 25th leaves **negative \$995K** in backlog on 22 Apr

Recommendation:

480th allows 25th to utilize funding mapped to 480th MIPR to cover negative amount ~\$1M.
(Requires TPOC, 480th and COR approval, no MOD)

- | Note: During the Dash-8 period 480th used \$444K of 25th funding
- | Note: During the NCTE2 26-29 Mar period 480th used \$455K of 25th funding
- | Total 25AF funds used to cover 480th Labor (Dash-8 and NCTE-2) = \$899K

Let me know if you have questions and steps to proceed.

Kevin

Subject: RE: HOT Legal Questions on ACC ISR Contract Protest

Chip,

Take a deep breath... The only effect the protest has is on our ability to use the new Leidos task order until resolution of the protest. On the extended BAH contract, once your CO tells you the mod is in effect to fund the remainder of the extension, and what your ceiling is, you just continue using that support. If GSA can award a 90-day bridge to BAH to continue that support, once they tell you that's in place, it's business as usual with BAH. Once the protest is resolved your CO will provide the way-ahead. GAO's goal is to resolve all protests within 100 days. Your other Leidos vehicle is a totally separate matter and is not affected by the protest in any way.

Don't let the "no email" message spook you. The email moratorium only affects the protested task order, not any of the business we need to transact with the BAH bridge or the other Leidos contract. Once you know the extension has been funded, its day-to-day use for continued support is not affected in any way by the protest stay. And that includes normal communication between us and our

contractors. And the same thing goes for any subsequent bridge with BAH. Just don't discuss the protest with anyone from either company.

If we still need a meeting, let me know.

Paul

Subject: HOT Legal Questions on ACC ISR Contract Protest

Paul,

My team and I are in a tricky situation and I would like to set up a meeting with you to make sure we are all current on what we can and can't say and also how to keep the lines from blurring. And more importantly keep everything legal and protect 25th AF.

1. We have a current contract with Booz Allen Hamilton (BAH) which has been extended through an NCTE to 21 April.
 - Chris Norman and I are the Technical POCs (TPOCs) for this contract
 - We are required to continue to manage the contract and ensure the government continues to do what the government is required to do on this contract
2. The new large ACC ISR contract was awarded to Leidos on 15 Mar 19. Only Leidos and BAH bid on the contract
 - BAH protested the award on Monday, 25 Mar 19
 - GSA is currently working on a 90 day sole source contract with ACC A2, and 25 AF to keep BAH on contract during the protest period
3. We currently have a contract with Leidos under AEWD, Kat Hutt is the primary on that contract for us

So the challenge for us is that we have current contracts with both BAH and Leidos, that we are obligated to work and that we also have the new contract plus the protest to deal with.

Can we set up a meeting so you can brief all of my folks on what we can and can't do just to make sure that we keep everything legal? We have been through a protest before, but I think a refresher would be a good idea.

Thanks.

Thanks Maria

This was resolved Saturday.

However, I'm concerned Mr Alexander was given the impression the work would end COB today, which gave impression it would be midnight, not 1600L. Thus my concern on Saturday that I got a phone call from BAH telling me it was 1600L on Monday, which further reduced timelines. In future telecons we need to ensure BAH uses specific times as to when funds will run out.

Jamison,

I appreciate your effort to streamline. However, communication from client agency as well as BAH needs to go through myself as the COR not directly to the CO.

I am happy to CC you on any requests that I send out for information on funding burn, etc regarding the project you are on.

Thank you,
